

THORENS

TD 170-1 (Thorens Rot)
TD 170-1 (Thorens red)

d: Nicht nur für Einsteiger. Der hochwertig verarbeitete Vollautomat TD 170-1 verfügt über drei verschiedene Drehzahlen, so dass er auch alte Schellackplatten mit 78 Umdrehungen pro Minute wiedergeben kann (hierzu wird eine spezielle Nadel benötigt, die separat erhältlich ist). Dank der kinderleichten Bedienung können Sie mit diesem Plattenspieler sofort loslegen, ganz ohne zeitraubende Justagearbeit. So macht analoge Musik Spaß!

Der TD 170-1 ist auch mit eingebautem Phonovorverstärker erhältlich (TD 170-1 phono).

e: Not just for beginners. The well crafted, fully automatic TD 170-1 comes equipped with three speeds so it can also play shellac records at 78 rpm (the special stylus/cartridge required is available separately). Owing to its truly easy operation, you can start playing your records right away without having to waste time with finicky alignment work. The fun with analogue music starts here!

The TD 170-1 is available also with integrated phono pre-amplifier (TD 170-1 phono).

Hergestellt in Deutschland

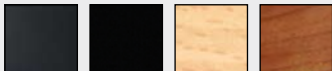

Für Verstärker ohne Phonoeingang sind die passenden Phonovorverstärker *MM 001* und *MM 005* erhältlich.

Made in Germany

The dedicated *MM 001* and *MM 005* phono pre-amplifiers may be employed with amplifiers without phono stage
